How to avoid and/or manage complications in oral and maxillofacial surgical patients
Speakers:
Ana Nemec
Med Vet, PhD, Dipl AVDC, Dipl EVDC (SLO)
Margherita Gracis
Med Vet, Dipl AVDC, Dipl EVDC, Milano

Focus
This interactive session will focus on the correct approach to the oral and maxillofacial surgical patient. It will be discussed how to avoid and manage common complications in palatal surgery and closure of oronasal fistulas, in dental extraction procedures, in trauma and oncological cases, and other oral and maxillofacial procedures. Clinical cases and videos will be utilized to practically discuss these topics. Participants will have the possibility to bring their own clinical cases to be discussed with the tutors and the entire group. Information about these cases should be submitted at least 60 days before the meeting.

THE SECRETS OF THE OCULAR SURFACE
A new approach to diagnosis and treatment

Modifications of the environment and of living habits have given rise to new pathological conditions of the ocular surface that now afflict millions of people throughout the world. The attention of researchers and of the industry is now focusing on such conditions.

Also in animals there has been an impressive increase in the number of pathological conditions involving the tear film, the cornea and the conjunctiva; such clinical cases arrive daily to Veterinary Surgeons and require instrumental examinations, the identification of differential diagnoses and specific therapies.

New diagnostic tools are now available that enable accurate diagnoses and the prescription of specific therapies. With this Master Lecture, the speaker will guide the participants through a brief update fundamental for the understanding and treatment of ocular surface disorders.

HOW TO REACH RIMINI
BY AIR
Bologna’s International “Guglielmo Marconi” airport is approximately 100 km away from Rimini by motorway and can be reached in an hour, also with shuttle buses or private vehicles. It guarantees daily links with major Italian, European and international cities, served by the main international airlines. For further information: www.bologna-airport.it.

SHUTTLE SERVICE Bologna Airport/Rimini
365 operating year-round, 10 trips a day round trip, matching start and end of major domestic and international air flights, Shuttle Rimini Bologna is the only direct connection – by road – between Bologna Airport and Rimini this shuttle Service connects Bologna (Guglielmo Marconi airport) and Rimini (train station and via Annibale Fada stops). www.shuttleriminibologna.it

BY CAR
Thanks to the motorway network, Rimini is well connected with the rest of Italy and Europe. It lies on the A14 Milano-Bari motorway, and is served by two exits: Rimini Nord and Rimini Sud. With the A14, from Rimini it is easy to reach the A4 to Venice and the A22 to the Brenner pass. Florence, Rome and Naples are equally accessible with the A1 motorway.

BY TRAIN
The Palacoingressi di Rimini Conference Centre is connected to the railway station through the bus line N. 7. The rail network also helps to link the Rimini Riviera with the rest of Italy. From Rimini, just 1.5 km from the Palacongressi, you can conveniently reach also by high speed connections, Bologna in 1 hour, Milan in 2 hours and Rome in less than 4 hours.

GETTING AROUND RIMINI
Rimini has a modern and efficient urban transport network, run with minibuses, the latest generation of coaches and fast, eco-friendly vehicles. The Palacongressi is linked to the town centre by lines 7; lines 18 and 19 link it to the hotels situated on the seaside promenade.

For further information: www.tram.rimini.it / www.startromagna.it
For those seeking a more “green” approach, there are numerous cycle lanes through parks and along the river. Bikes are available free of charge for all guests of the Riviera hotels.
